

PARALIGN Feather Boards

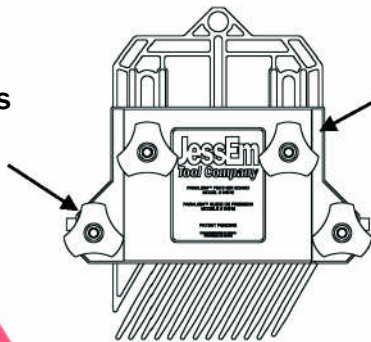

Revolutionary New Design Allows Quick And Easy Parallel Height Settings, While Staying Securely Positioned In One Place.

**JesseEm
Tool Company**

- Two additional knobs allow you to make quick and easy height settings for different material thicknesses
- Once set in position, PARALIGN Feather Boards remain parallel to material while making different height settings
- Feather tips molded with rounded edges and perfectly flat so they won't mark your material
- Stackable For taller stock (hardware included w/Twin Pack)
- Premium high impact molded plastic
- Twin pack includes hardware for 3/4 miter slot and 1/4 inch T-track. Also includes longer bolts for Tandem use
- Single pack includes hardware for 3/4 miter slot and 1/4 inch T-track

Set Outer Knobs To Position The Feather Board Securely

Adjust Inner Knobs For Fast Height Settings
